Dear Patient,

Dr is a fully qualified doctor but in their final year of GP training. As part of their assessment they have to submit recorded consultations. Today they would be grateful if you would consent to your phone consultation been recorded for training purposes only.

You will receive an automated message prior to your phone consultation where you can either agree to or decline recording of your consultation.

You can withdraw consent immediately after your consultation or at a later date by ringing the surgery.

Both the GP trainers and GP trainees are grateful for your help with this important part of their education.

Yours sincerely

Dr Paula Baxter
GP Trainer
